CONDITIONS OF SALE.

Please Read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on. are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per PIECE, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached $2. no advance under 10c will be accepted on any lot containing one piece; after $5.00 the bid must advance 25c each time; after $10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are **strictly for cash.** Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer. THOMAS L. ELDER.

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

No priced catalogue will be furnished of this sale.

INTRODUCTION.

This December Coin Sale of Banker Steinhardt, of San Francisco, California; of the Guttag Brothers and other individuals, takes on added importance through the inclusion of the following very rare items, viz.

1. **The Kellog-Hewston $49.50** (really $50) **Bar**, which circulated in California between 1852 and 1854. The weight and fineness were placed thereon by law passed in 1850. John Hewston, Jr. and Kellog were connected with the U. S. Assay office 1852-1854, and the inclusion of their names gives the piece official standing and proves it circulated with others at its face value, therefore it is an authentic pioneer gold coin of the gold days and of the greatest importance numismatically, and we **believe it to be unique.**

   The early Directory of San Francisco discloses that John Hewston, Jr. and also Kellog were employed at the U. S. Assay office up until 1854, when Kellog went into the coining business for himself. Therefore this bar is a U. S. ASSAY OFFICE BAR. It has its full weight, being chipped at the corners to give it the correct weight, and the Mint at San Francisco explains that the Government demanded the names stamped on the bars of the makers in the employ of the Assay Office. Curtis, Perry and Ward were the assay contractors and managed the office at the time, under the act of Congress, passed in 1850 authorizing the Secretary of the Treasury to arrange with private concerns for the refining of gold and running into ingots, placing thereon the fineness and value. This is authentic. Mr. Landecker writes "There is no doubt about this bar being made by the Assay Office and was circulated in lieu of the regular coinage." Steinhardt came to California from Austria in the fifties. He was a pioneer banker.
2. **The Beautiful Uncirculated $50 gold coin, dated 1851, 887 Thous. of Augustus Humbert.**
3. **The Moffat & Co. $16.00 Ingot,** a very fine example. One of these sold for a record price at the Lawrence Sale in last June.
4. **The Baldwin & Co. $10. With Vacquero, dated 1850.** Very fine specimen.

ANTIQUES, CURIOS, JEWELRY, GEMS.

THE KELLOG-HEWSTON SLUG $49.50.

975 (1852-54). **California.** $49.50 Slug. Obverse: No. 2425—2.77 OZ—864 ½ FINE—$49.50. Reverse: 2425 in large antique style figures. Edges (4):—Bottom part of U. S. Shield at left side U. S. at other side UE (meaning I judge U. S. Revenue). Edge 2: KELLOG-HEWSTON in two lines. Edge 3. HEWSTON. Edge 4: Top part of U. S. Shield V T (?)—EV. Weight as stamped viz. 2.77 OZ. Size 32x14½ MM. Edge 6 MM. in diameter. The San Francisco Directory for 1852 states that John Hewston, Jr. was a smelter and assayer, connected with the U. S. Assay Office and the inclusion of his name on this bar gives it added importance and value and gives it official standing. It bears a U. S. Shield on its edges and a reference to the U. S. Revenue Department, proving it circulated with other coins of the period at its face value. It is, therefore a pioneer gold coin, in the same class as the Moffat & Company Ingots of 1849. There is no record of its having been offered before and we believe it to be **unique.**

750-

This and the following three coins were collected many years ago by an old "Forty-niner" named Steinhardt, who died a few years ago aged 78 years. He was an old banker and assayer, and was known personally to me like Hugo Landecker of San Francisco. This Mr. Steinhardt collected other things besides coins, so we have here four pieces of the greatest interest from the collection of an old pioneer merchant of San Francisco, adding further evidence to their authenticity. All of the above statements and others in regard to John Hewston, Jr., whose name appears with that of coiners Kellog & Co., can be verified and amplified. The records show that Hewston officiated between 1852 and 1854, and we all know Kellog struck much gold in 1854.

Pattern presented to Grand Duke Constantin at Warsaw, during the interval between the death of Emperor Alexander I at the 14 of December

"But the rarest coin, since only a single specimen exists, et curious for its history, since it recounts a fact which soon will be forgotten, is a ruble struck soon after the death of Emperor Alexander I, when at St Petersburg allegiance had been sworn to Emp. Constantin, was struck at St Pet. as a pattern and then was sent to Warsaw with a deputation of the Senate to be submitted for approval. This ruble shows on the obv. the bust of Const. over the inscript. Constantin I Empereur and below the date 1825, on the rev. we see the Imperial Eagle surmounted by a horned breast, with the inscript. indicating the value and the fine silver content. This ruble exists only in a single specimen, the dies having been destroyed right on occ. of, and this specimen having escaped destruction by a mere accident.

Additional printed slip also photos of these will follow in a few days. (2)
